

**Spend more time producing,  
less time cleaning**

**Reduce cost**

**Improve efficiency**

**Protect health  
and safety**

# Tests confirm our promise

We asked an independent research company to define some real tough tasks to test the performance of Tork wipers versus rental shop towels. The results were significant: less time and less solvent were used with Tork, less energy, too. These tests confirm our promise: Tork cleaning cloths can save you money and speed up your tasks so you can be ready sooner for production.

## Tork wins over rentals

### Cleaning time in seconds

up to **23%**  
less time

### Used amount of solvent (ml)

up to **27%**  
less solvent\*

---

## The toughest tasks are easier with Tork

We wanted to test the limits of our wipers and measure the energy it took to master an even tougher task. A test using asphalt mixed with grease was prepared by the Swerea Research Institute. When this tough task was done, Tork cleaning cloths required up to 20% less energy to do the same job\*\*. So not only do our cloths outperform rental shop towels, they even make tough jobs easier.

### Energy

up to **20%**  
less energy\*\*

easy tough

\***Test one:** Removing paint that had dried for 4 minutes from a metal surface 60 x 90 cm with the aid of a solvent, white spirit. The paint, alkyd based primer, was applied by a roller. Panel participant started off by using 10 ml solvent and was able to add more solvent into the cloth in steps of 5 ml per occasion. Rental shop towels were compared to Tork Heavy-Duty Cleaning Cloths. Panel test conducted by Swerea Research Institute, Sweden, 2014.

\*\***Test two:** Removing 10 g of a mix of asphalt 2/3 and grease 1/3 that had dried for 1 hour, from a metal surface 60 x 90 cm with the aid of a degreaser, CRC brake degreaser. After the task, panel participants were asked to evaluate the energy/work needed on a 1-4 scale with perceived energy being: **1)** very easy, **2)** easy, **3)** tough, **4)** very tough. Rental shop towels were compared to Tork Heavy Duty Cleaning Cloths and Tork Industrial Heavy-Duty Cleaning Cloths. Panel test conducted by Swerea Research Institute, Sweden, 2014.

# Safety is a priority

In addition to Tork performance advantages, there are also health and safety benefits. For example, Tork wipers are always new out of the box. This makes them cleaner and safer\* compared to used rental shop towels because Tork wipers have:

- No chemical residue or stains from prior-usage
- No shards of metal to injure hands, damage equipment or finished goods
- No suspicious odors to endure while working
- No frayed edges that can catch in a machine

# Environmental impact

SCA has conducted a life cycle assessment (LCA)\* looking at the environmental impact between rental shop towels and Tork cleaning cloths with exelCLEAN®. This LCA shows that the environmental impact of the two systems are on par, on a cloth to cloth basis.

\*The LCA has been reviewed by an external expert panel, 2014

# Improve workplace functionality – for people and profits

Today's lean manufacturing principles are making workplaces safer and more efficient.

If you're working with the 20 keys concept, key one – making work easier by creating a functional, visually organized workplace that inspires productivity – is where Tork systems, cleaning cloths and dispensers, can help you make a difference.

If rental shop towels are your standard, now is the time to challenge that standard and develop better methods. We can help you do more to reduce cost, increase efficiency and improve safety with a clean, orderly, more efficient working environment.

Turn preparation  
time into  
production time

## Are you ready to test the Tork system?

Tools are a source of pride for many workers. Put a better tool in a worker's hands and they'll do a better job. The same goes for their workplace. A well-organized environment with well-maintained machines inspires productivity and improves quality – that's real value your customers will pay for.

Tork Industrial wiping and cleaning systems raise the bar. They help minimize downtime to increase output – so you're ready to be more competitive. Ask your colleagues to test and compare Tork purpose-made industrial tools to working with rental shop towels. When everything is evaluated, the advantages for people and profits will be clear.
